## **ACKNOWLEGMENT**

On behalf of team members. I would like to thank everyone who supported my team to successfully complete this eProject report. Especially, our teacher, she has supported us a lot since we started studying at FPT Aptect. With this eProject, she guided us very meticulously, enthusiastically and strictly. With her guidance, we were able to successfully complete this project. Besides, I also want to thank all the team members, each of whom worked hard to complete the eProject in earnest during the month of working together. Finally, our group would like to say thank you to my classmates and family for sharing and creating for the group the best environment to focus on the project, motivating the members to achieve their goals.

## **SYNOPSIS**

The beauty of receiving high quality luggage is a truly amazing feeling. Great luggage can be passed down from family members who are experienced travelers. A high-quality set of luggage will last a lifetime.

Bronx Luggage, located in the Festival Marketplace, offers a wide selection of luggage from affordable sets to the best brands on the market for all of your travel needs. We also stock Backpacks, travel accessories, briefcases and much more.

We are supposed to create a Single-Page-Application and responsive Website for them with the below mentioned requirement specifications

## **ANALYSIS**

### **1. Purpose of the Website.**

The portal will be designed as a Single-Page-Application and responsive Website with a set of pages and menus that represent choice of activities to be performed. The pages, menus, and other visual elements must be designed in a visually appealing manner with attractive fonts, colors, and animations.

### **2. Design and Interface.**

- The website features a user-friendly environment and navigation. Key menus are positioned at the top for easy access to information.

- The interface and color scheme are harmoniously combined to create a visually appealing and engaging experience for users.

### **3. Technical Requirements**

- The website must perform well across all major browsers including Chrome, IE, Firefox, etc., ensuring accessibility from various devices and platforms.
- It utilizes a Single-Page-Application (SPA) approach to deliver a seamless and fast web browsing experience.
- Features are designed to meet technical requirements, facilitating quick and accurate loading and display of information.
